

DENTAL ASSISTING, CERTIFICATE OF ACHIEVEMENT

The Dental Assisting Program introduces students to the high demand field of professional dental assisting. Dental assistants are a significant and valuable member of the dental health care team. Students are trained to perform a wide variety of duties including working chairside as patients are examined and treated, sterilizing instruments, and applying anti-cavity agents to teeth. Dental assisting students are also taught to perform laboratory duties such as taking impressions and making temporary crowns. Additionally, the Dental Assisting Program offers curriculum on executing office duties like scheduling and confirming patients, filing patient treatment records, and ordering dental supplies. The Dental Assisting Program at Oxnard College includes patient care practice in a fully equipped, on-site facility, as well as off campus externship experiences.

Course ID	Title	Units/ Hours
Required Courses		
DA R010	Introduction to Dental Assisting	3
DA R011	Beginning Radiology for Dental Assisting	3
DA R012	Dental Materials for Dental Assisting	3

	Total Units/Hours	27

Upon successful completion of this program, students will be able to:

- Effectively practice anti-cariogenic techniques and employ the appropriate anti-cariogenic dental materials (e.g., administer oral hygiene instructions, apply fluoride varnish) under the proper supervision of a dentist.
- Examine the ethical and legal decisions inherent to the dental field and distinguish between unethical and illegal actions.
- Manage their fundamental roles in a dental practice.
- Employ the skills of chairside dental assisting in general practice and be able to apply those general practice skills to the duties of a dental assistant in specialty practice.
- Operate dental radiographic equipment properly and safely.
