

# LIBRARY & TUTORING

## Library Learning Resource Center

The Library Learning Resource Center (LLRC) at Oxnard College is a beautifully crafted building that is home to Library Services, Tutorial Services, Writing & Reading Center, Proctoring Center, Open Access Computer Lab and Student Study Rooms.

The LLRC provides programs and services designed to enhance student learning, student success and faculty instruction and interaction.

See: <http://www.oxnardcollege.edu/llrc> (<http://www.oxnardcollege.edu/llrc/>)

- All Oxnard College students may check-out reserve, circulation or digital media materials. Free community members borrower's cards are available to Ventura County residents.
- Laptop computers, hotspots, calculators and other technology items are also available for check-out to students, faculty and staff.
- LLRC hours are 8:00 a.m. - 8:00 p.m. Monday through Thursday and 8:00 a.m.- 5:00 p.m. on Friday. Summer session hours are as posted. The LLRC is closed on Saturdays, Sundays and all academic holidays. Variations to LLRC hours for unforeseen events or emergencies will be posted to the website.

## Library Services

Located on the second floor of the LLRC, the Library maintains a collection of 40,000 books, 19,000 electronic books and multiple online database services. Reference librarians are available to assist students with academic research and teach research skills via in-person, email and live chat methods. We also make classroom presentations upon faculty request. See: <https://www.oxnardcollege.edu/library-research-instruction> Library staff are available to check materials in and out and to render assistance with document editing, courseware and other technical tasks. See: <https://www.oxnardcollege.edu/llrc> (<http://www.oxnardcollege.edu/llrc/>)

## Tutorial Services

The goal of tutorial services in the LLRC is to support students in becoming independent lifelong learners by providing services that will improve and strengthen academic performance and skills.

Tutorial services in the LLRC are available for free to all enrolled Oxnard College students. Writing and Reading tutors are available to support students with any writing or reading assignment for any class at any stage in the process from planning to the final draft. We help students improve skills such as brainstorming, understanding the assignment, writing thesis statements, organizing ideas, reading comprehension, study skills, using accurate citations, improving sentence structure and grammar skills. Additionally, the tutors help with other types of writing including personal statements for university applications, scholarship essays, resumes, and cover letters.

Course-specific tutoring is also available in most subjects including math, science, social sciences, humanities and others. Tutoring is provided by trained peer tutors and university graduates who have outstanding academic performance in their respective subject areas. The Writing, Reading, and Tutoring Center (WRTC) and STEM peer and provisional tutors provide a friendly and supportive atmosphere for all students.

Online tutoring is also available. Students have the option of meeting Oxnard College Tutors online, as well as utilizing the online tutoring program Net Tutor.

Hours are posted at:
