

SCULPTURE, CERTIFICATE OF ACHIEVEMENT (COA)

A Sculpture Certificate of Achievement (COA) provides students with foundation-level technical knowledge, skills, and aesthetic judgement in preparation for advanced study in this area at a four-year institution or professional art school. Students develop conceptual tools and technical skills in three-dimensional art forms. Instruction focuses on the formal study of spatial relationships as well as the context and history of 3-D art objects and their settings. Skill development emphasizes traditional modeling, casting, joining, and welding techniques as well as the use of newer technologies. The certificate can lead to a career focused on individual studio practice, industrial design, or ceramic or arts instruction at any educational level. This certificate provides a secondary area of emphasis that can complement any Art AA or AA-T degree.

- Critically evaluate digital media and graphic communication design and production techniques and their use in selected areas of emphasis.
- Analyze works of art in terms of their historical contexts and social and cultural values.
- Analyze works of film and media, create and edit works of film including narrative and editorial.

Course ID	Title	Units/ Hours
Required Core Courses		
ART V19	Three-Dimensional Design	3
ART V25A	Beginning Sculpture I	3
ART V25B	Beginning Sculpture II	3
ART V26A	Intermediate Sculpture I	3
Required Core Units		12
Required Additional Courses		
List A: Select 1 course from the following:		
ART V11A	Color and Design: Two-Dimensional Design	3
ART V26B	Intermediate Sculpture II	3
ART V50A	Handbuilding Ceramics I	3
ART V51A	Beginning Ceramics I	3
Required Additional Units		3
Total Units for the Certificate		15

Year 1		
Fall Semester		Units/Hours
ART V19	Three-Dimensional Design	3
ART V25A	Beginning Sculpture I	3
Units/Hours		6
Spring Semester		
ART V25B	Beginning Sculpture II	3
Select 1 course from List A		3
Units/Hours		6
Summer Semester		
ART V26A	Intermediate Sculpture I	3
Units/Hours		3
Total Units/Hours		15

Upon successful completion of this program, students will be able to:

- Demonstrate basic drawing skills, color manipulation, and design principles in areas of emphasis.
- Demonstrate three-dimensional techniques in creating objects in selected areas of emphasis.
- Demonstrates the proper use of the camera and the basic techniques of analog and digital photography in selected areas of emphasis.
