

SPANISH

The Spanish courses at Ventura College prepare students with communication skills and provide an understanding of the Spanish-speaking cultures. These courses also provide the instruction necessary to develop proficiency skills in aural comprehension, speaking, reading, and writing. The beginning-level courses introduce basic grammar, vocabulary, communicative functions, and culture. The intermediate-level courses continue development of proficiency skills through discussion of films, periodicals, and literary works to increase vocabulary, cultural awareness, and knowledge of linguistic variations. The intermediate courses provide a track for heritage language speakers of Spanish.

The acquisition of another language increases the awareness, understanding, and appreciation of diverse cultures and facilitates a culturally sensitive exchange of ideas and transactions to effectively communicate with people of different values and social attitudes. Spanish is the second language most valued by employers in many U.S. geographical regions. Spanish-English bilingualism is an essential and often required skill in a growing variety of careers, including education, medical, business, law, law enforcement, journalism, and translation and interpreting.

Upon completing Ventura College's Associate in Arts in Spanish for Transfer degree, students will possess the foundational knowledge to communicate with the global Spanish-speaking community. In addition, they will be prepared for the further expansion of these skills at upper division university levels.
